Remarks/Arguments

Claim Summary

By this Amendment, original claims 1-12 have been cancelled without prejudice in favor of new claims 13-27.

Thus, claims 13-26 are now pending in the application.

Election of Species

Applications elect Species I, FIG. 2, among the alleged species identified by the Examiner. The election is without traverse.

Claims 13-14, 17-19 and 23 read on the elected species.

Claims 13 is generic.

Specification and Drawings

By this Amendment, the specification and drawings have been revised for clarity and/or to add missing reference numbers. No new matter has been added.

It is noted that the original specification was devoid of a detailed description of FIG. 7 of the drawings. Accordingly, a paragraph directed to FIG. 7 has been added to the specification. Applicants respectfully contend that no new matter has been added in this respect. As one skilled in the art will recognize, the circuit diagram of FIG. 7 is the same as that of FIG. 2, except for the connections of the transistors 271 ~ 274 to the switch electrodes 291 and 292.

Respectfully submitted,
